Differentiators

- Time management
- Testing completed in a timely manner by tracking the specimen from collection to the client or physician
- 24-hour concierge service and our compassionate approach to each patient and client
- Over 25 years combined experience in healthcare and healthcare management with integrity
- Main focus is the patient, client, and family to ensure it's all about the patient's health, to enrich the lives of our patients and/or clients, and to eliminate transportation problems for their medical needs.
